ENERGYCOMPASS.design

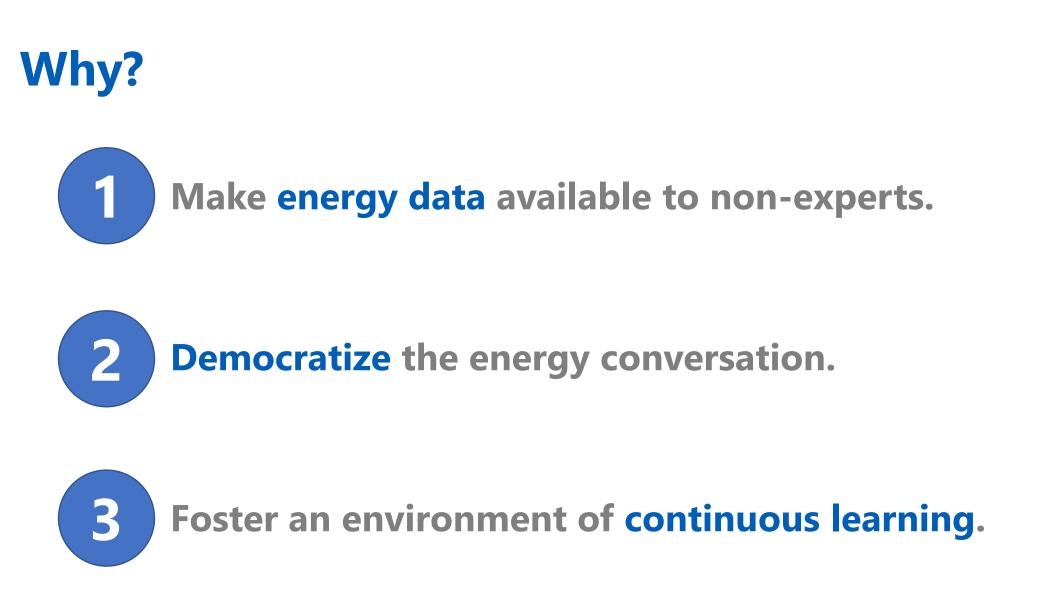

Mike Williams mike.williams@rwdi.com t: 416-710-9632

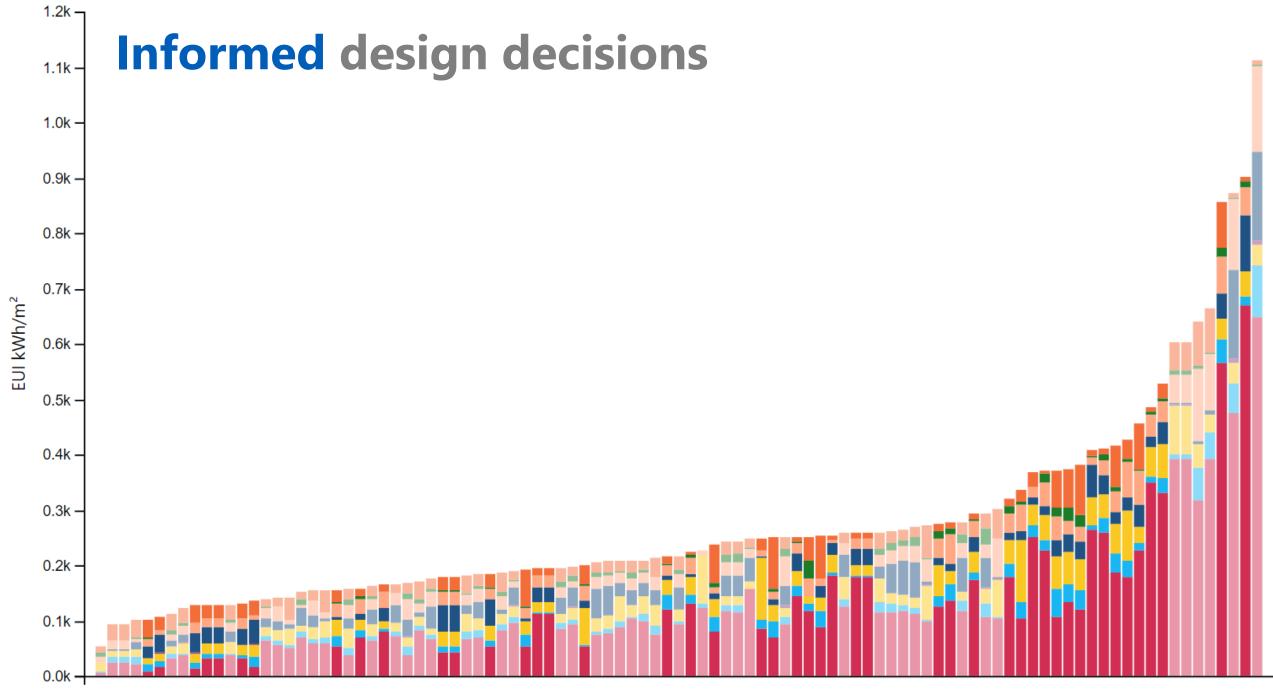

What does the tool do?

1 Users upload energy modelling results

2 In seconds, hundreds of key data points are extracted from the file and added to the database

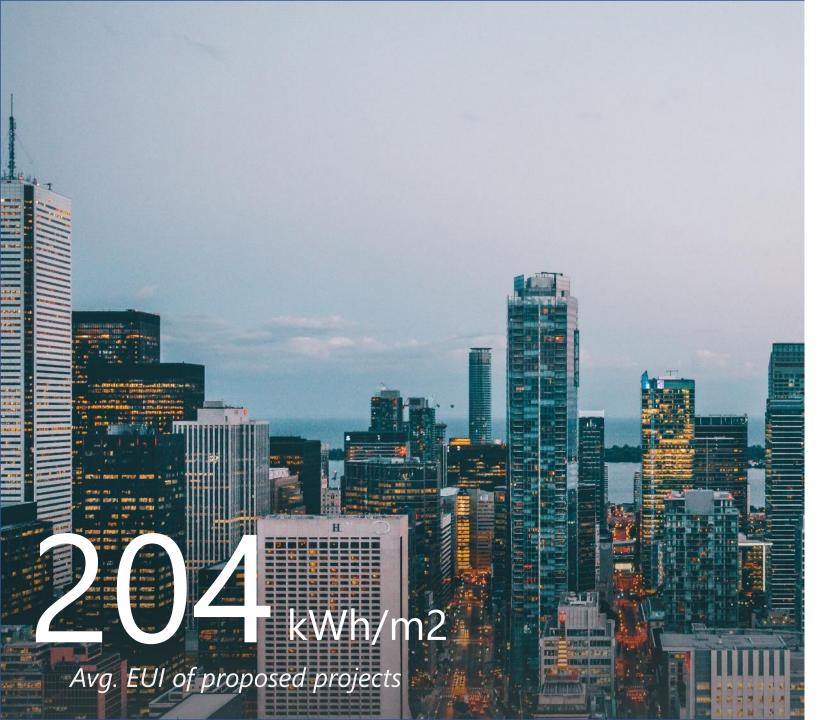

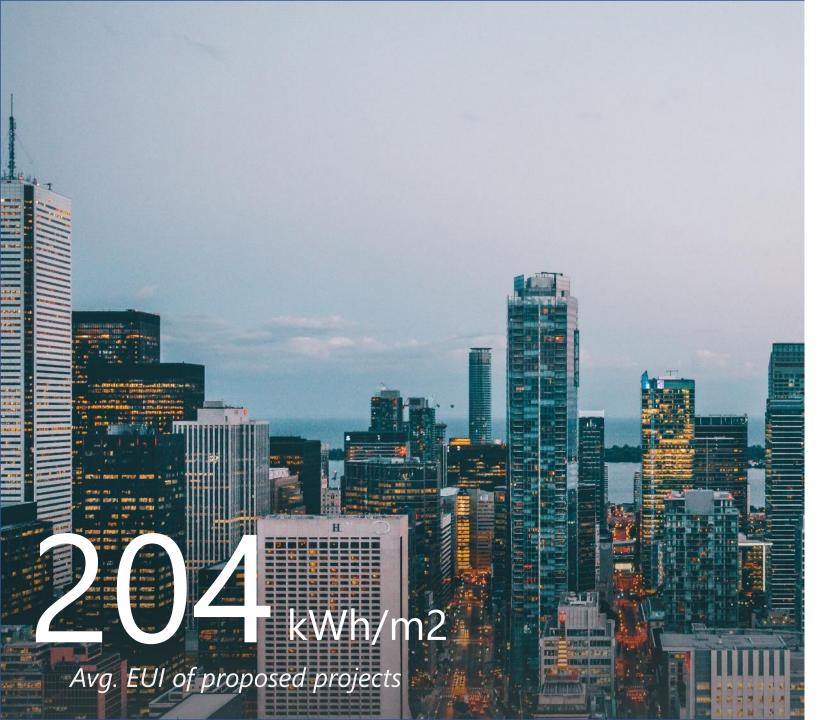

Projects

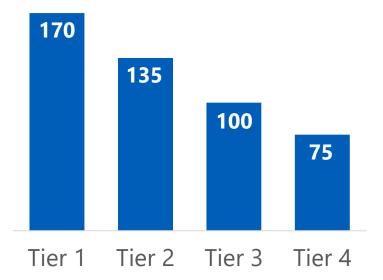

Avg. EUI of proposed MURBs

Governance

Letters of Support & Beta Tester

Development Roadmap

Currently funded through 2020 with mandate to develop a free tool targeted at the design community.

Beyond informing designers we see a big opportunity help/inform authorities.
