

2019-2023 Declaration Actions Survey Results

Summary

(n =24 participants; 20 municipalities)

By Desislava Stefanova
Outreach Coordinator
Clean Air Partnership

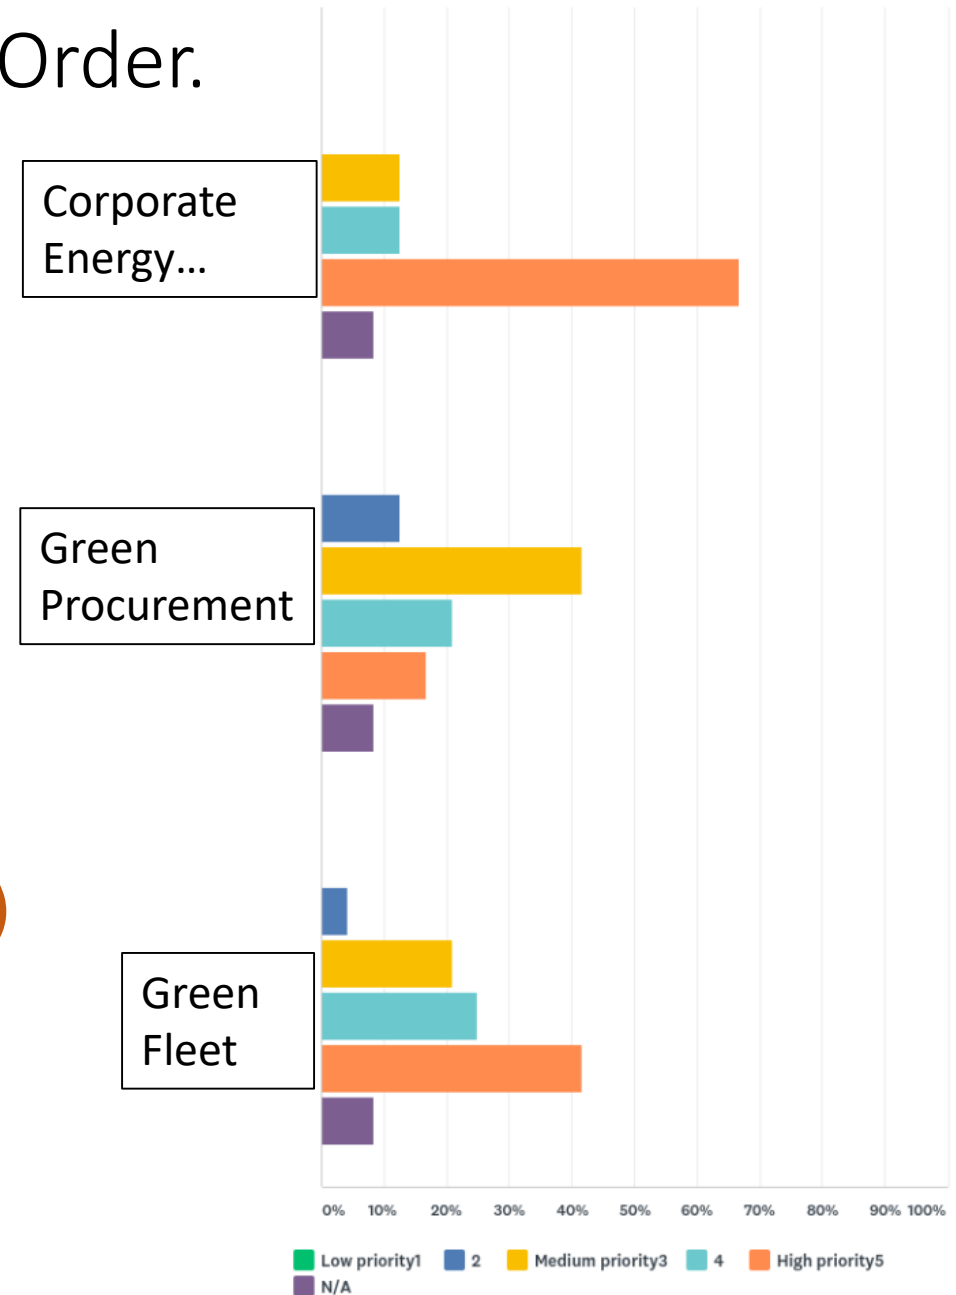

1 Getting the Municipal House in Order.

Ranked:

1. Corporate Energy Conservation (78% High Priority) – 18 responses

2. Green Fleet Plans (67% High priority) – 16 responses

3. Green Procurement (41% Medium priority) – 10 responses

2 Financing – advancing sustainable financing mechanisms

Ranked:

High Priority:

1. Development of Resilience Business Cases (67% – 16 r.)
2. Climate Change Integration into Stormwater Plans/Fees (62% – 15r)
3. Distributed Energy Project Business Cases and Models (62% – 15 r.)

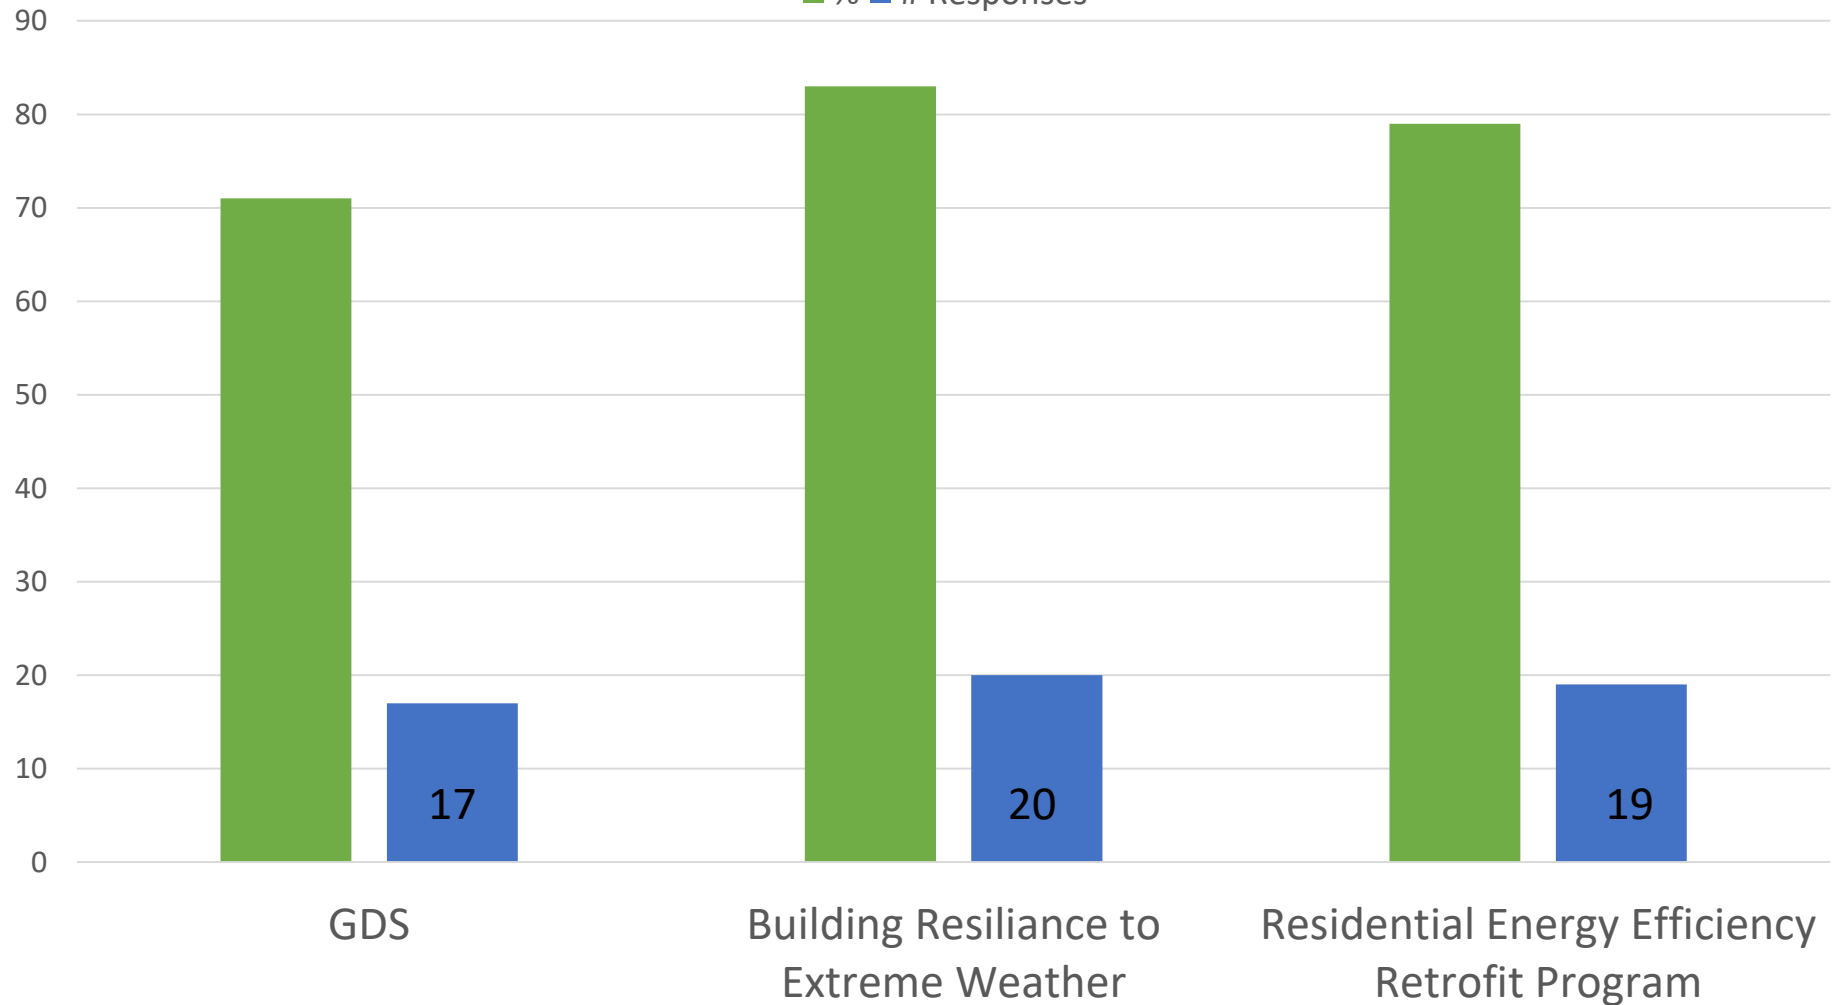

Medium Priority:

- Carbon Budgeting & Carbon Disclosure (33% - 8 responses)
- Scan of Revenue Tools Used in other Municipalities (25 % - 6 responses)

3 Buildings – reducing GHG emissions from building sector and increasing resilience

High Priority

■ % ■ # Responses

Medium Priority:

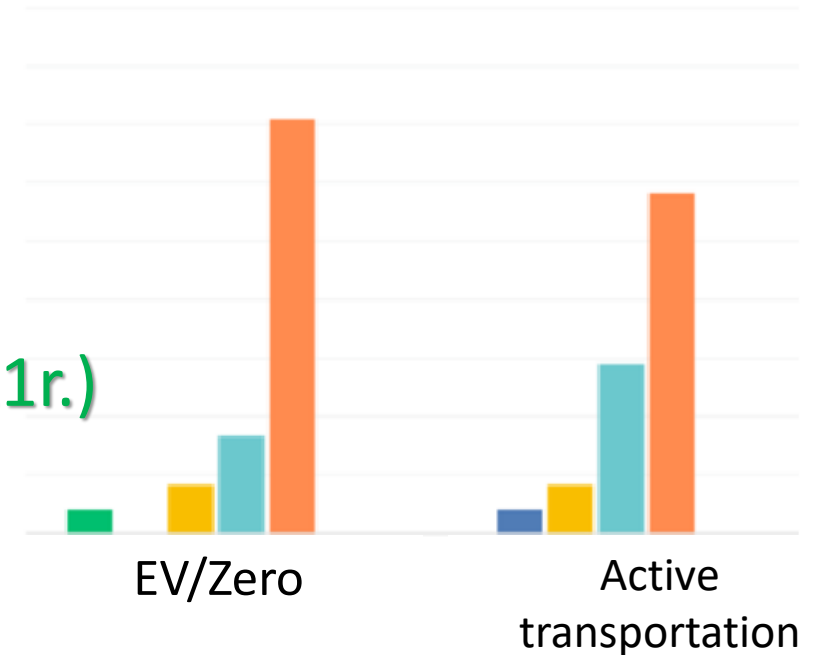

- Building Energy Labeling & Disclosure (33% - 8r.)
- Green/Cool Roof Policies (33% - 8r.)

4 Transportation – maximizing GHG reductions + co-benefits (policy/practices)

High Priority:

1. Electric Vehicle/Zero Emission Vehicle Municipal Strategies (corporate and community focus) (88% - 21r.)

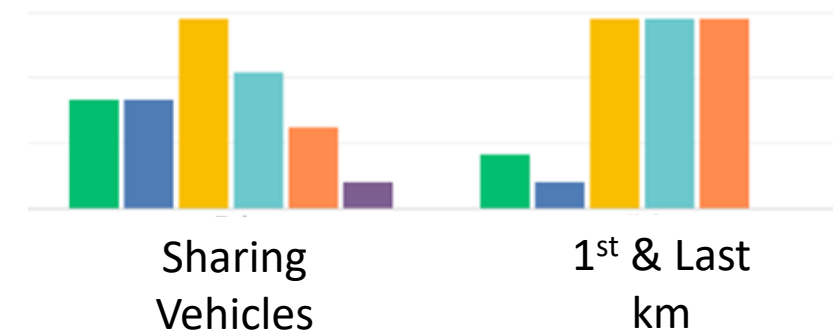

2. Active Transportation Policies/Plans (87 % - 21r.)

Medium Priority:

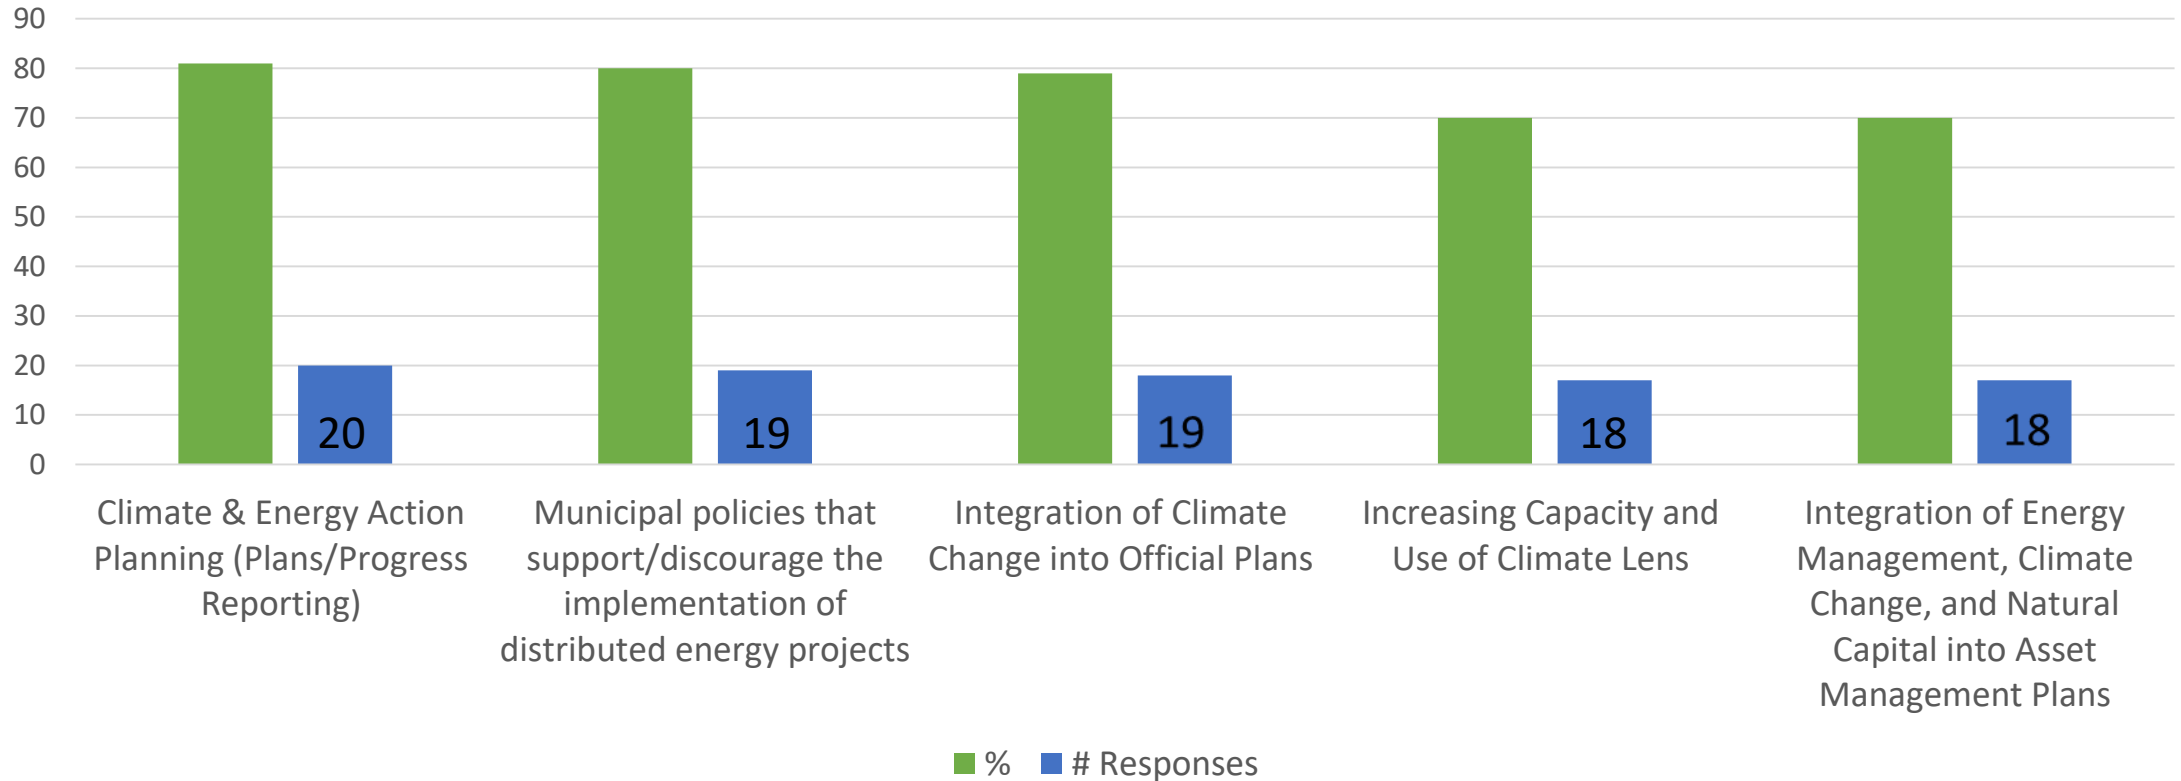

• Sharing and Autonomous Vehicles (research) (29%-7r.)

• First and Last km to/from public transit (research and scan) (29% -7r.)

5 Planning - incorporate climate change considerations into municipal decision making and service delivery

High Priority

Medium Priority: **Urban Agriculture Policies (37% -9 r.)**

6 Communication -increase the integration, transparency and rationale of climate decision making

Ranked:

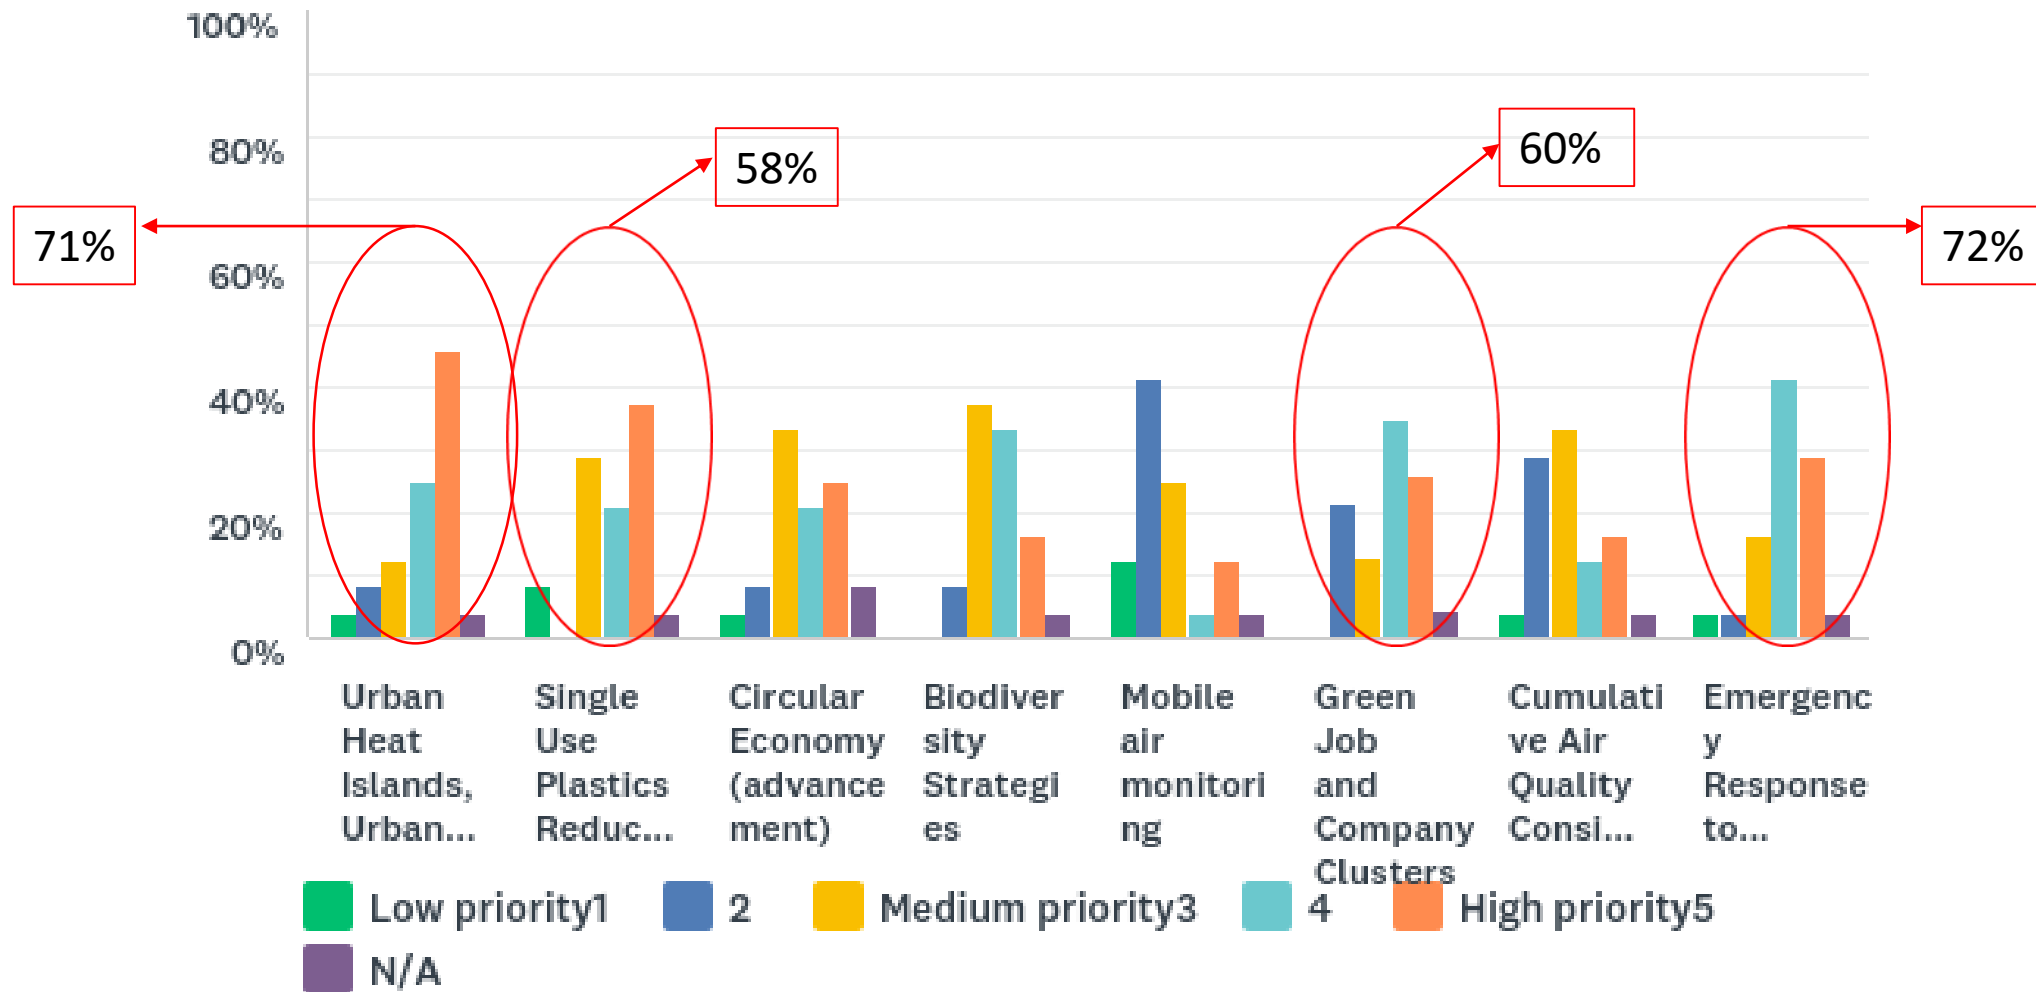

High Priority:

1. Links between: Community Livability/ Economic Competitiveness/ Climate actions (79% -19r.)
2. Increasing integration of co-benefits and equity into climate action/community energy plans (69% - 16r.)
3. Increasing transparency (Climate Change considerations in municipal decision making) (66% - 16r.)

Medium Priority:

- Improving CAC communications (what climate action looks like in CAC member Jurisdictions) (46% - 11r.)

7 Emerging Area – ensure that CAC network are kept informed on emerging trends

7 Emerging Area –con't

Ranked:

High Priority:

1. Emergency Response to Extreme Weather (72% -17r.)
2. Urban Heat Islands, Urban Forestry, and Air Quality (health and equity considerations) (71% -16r.)
3. Green Job and Company Clusters (60% -14r.)
4. Single Use Plastics Reduction (58% - 14r.)

Medium Priority

- Biodiversity Strategies (70% - 17r. – medium to high (3+4))

8 Other Priorities

- Mobilizing community/local leading employers (Green Economy Canada - more hubs in southern Ontario) (2 municipalities)
- Integration of parks/natural heritage planning with climate change lens applied
- Corporate Sustainability Reporting
- Transportation related air pollution (TRAP)
- Urban forest management plan
- Community energy inventories
