

# How useful did you find this webinar

# Who are the youth groups you are aware of? and what are the questions you have about them and their work?

Climate Justice Durham

Peel Community Climate Council

Youth Climate Lab

Youth Challenge International

Canadian Youth Climate Coalition

Sustainable Youth Canada

Environmental Youth Alliance

Youth Climate Collective

Canadian Youth Alliance for Climate Action

# Who are the youth groups you are aware of? and what are the questions you have about them and their work?

Ecoschools Canada

Peel Community Climate Council

Youth Climate Lab

future majority

Canadian Youth Biodiversity Network

The Grove youth hubs in Wellington County (Erin, Fergus, Palmerston)

Guelph Youth Council

Everything we do is through schools

Windsor Youth Climate Council

# Who are the youth groups you are aware of? and what are the questions you have about them and their work?

Are there any Indigenous Youth Climate Action Groups?

Formalize partnerships with municipal climate leaders

BurlingtonGreen Youth Network - We have been invited in the past to meetings. They used to organize large conferences 'for youth by youth.' Keynote speakers included Jane Goodall, David Suzuki, etc.

Burlington Youth Council - run by municipal staff during the school year. Members of Council and staff present to youth and ask for input.

Halton Climate Collective - GenerationGreen conferences and work each year - for youth by youth - strive to reduce community GHG emissions

Mentorship programs with Youth Leaders

# what are your suggestions/input for how youth groups can be better supported to facilitate municipal youth engagement opportunities?

provided with funding / paid for their time

Teach the foundations of civics and how municipal governments work

Being included in decision making processes

access to municipal staff

Reach out to them via Instagram, Tik-Tok or other platforms

connecting youth/youth groups with existing community groups with similar interests & goals

Engagement with urban Indigenous youth

Youth advisory committees to council

mentorship opportunities for Youth Leaders

# what are your suggestions/input for how youth groups can be better supported to facilitate municipal youth engagement opportunities?

Hire youth ambassador to engage and guide/lead events

Facilitate Talking Circles as an inclusive governance structure

Include Youth Leaders on Stakeholder Committees

# Governmental Climate Action and Governance Education Series

what would be the value of that? How would it be doable and of value? How can we start small with this and build it out over time? How can a collective effort be advanced towards this goal?

# Tracking climate action decisions going to council.

"Climate Action" is very broad ... it's transportation (transit, active transportation); it's planning decisions (growth, etc.); it's asset management planning; forestry plans, etc. Would be difficult to collate.

Enbridge has requested that they be notified of all climate change reports going to Council. There is a mechanism for our Clerks office to do this.

Have kids give their municipality a climate change report card ;)

Would this be GTA wide? One common calendar?

We try to share them in our newsletter

# Sharings across municipalities on youth engagement efforts, what is being tried, what is working, what isn't working, what are possible improvements?

yes, the water festivals municipalities put on already do this and it works well

From our local school boards - youth are tapped out. Everyone wants their input on everything. Coordinated efforts are best and be very specific as to what you are asking.

# Additional suggestions for possible youth engagement actions for municipalities???
