Sustainable Cities Index

Crowd-sourced and interactive Reveals global leaders in urban sustainability Ranking Published Annually

1. Generate a tool that people working on sustainability issues in cities would want to use and would provide helpful insights.

2. Connect city representatives with individuals or companies that can generate solutions for sustainability issues.

2023

Sustainable

Cities Index

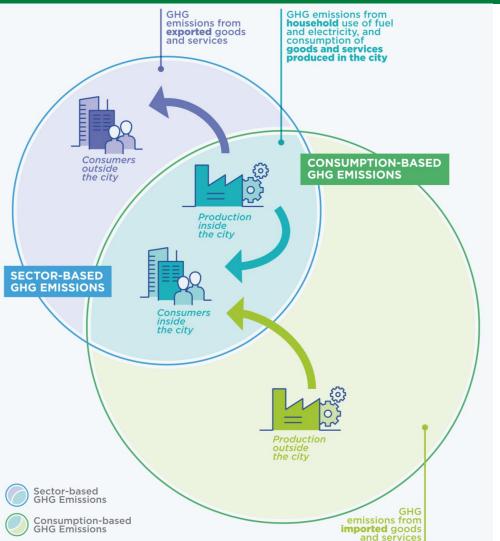

Environmental policies and targets

- Started with an assessment of the number of key policies tracked by REN21 that the city has enacted:
 - (i) renewable energy target,
 - (ii) electric vehicle target,
 - (iii) emission reduction target,
 - (iv) net-zero GHG target, and
 - (v) renewable energy enabling policy.
- Amended with additional information to support renewable energy policies and targets as provided by cities.

Sector-vs Consumption-based Inventories

Sector-based

<u>Scope 1:</u> produced inside the city <u>Scope 2:</u> produced from grid-supplied energy <u>Scope 3:</u> produced outside the city

Consumption-based

All emissions consumed inside the city, regardless of location of production

Consumption-based emissions in cities

 City's residential fuel and electricity use, personal transportation fuel, and waste

2. Embedded in goods produced domestically

3. Embedded in goods imported from other countries

Targets for Urban Sustainability Performance

Sustainable Cities Index Indicator	Target	Units
Scope 1 GHG Emissions	Net-Zero	tonnes CO2e/capita
Consumption-Based Emissions	Net-Zero	tonnes CO₂e/capita
Air Quality (PM _{2.5})	< 10	µg/m³
Open Public Space	45	%
Water Access	100	%
Water Consumption	100-150	litres/capita/day
Road Infrastructure Efficiency	< 1	km/km²
Sustainable Transport Mode Share	75	%
Vehicle Dependency	<1	vehicles/household
Solid Waste Generated	< 0.3	tonnes/capita/year
Climate Change Resilience	> 3	ratio
Sustainable Policies	5	/5

Sustainable Cities Data Hub: Crowd-Sourced

City officials are invited to add their city to the index

Steps:

- 1. <u>Register</u> city official credentials at <u>corporateknights.com/sustainable-cities</u>
 - Data Hub log-in credentials
- 2. <u>Provide</u> 15 key data points
 - Links to referenced data must be provided
 - Data verification
- 3. <u>Receive</u> the results of your city's sustainability performance on the index
 - Data exploration visualization tools
 - Download the database of data
 - Knowledge sharing platform

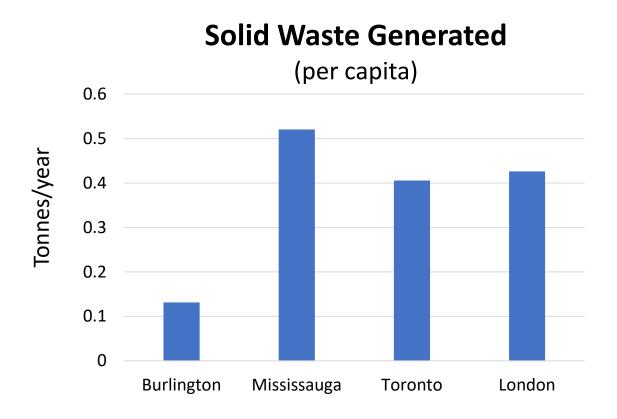

Greater Golden Horseshoe Area

How are municipalities similar?

How are they different?

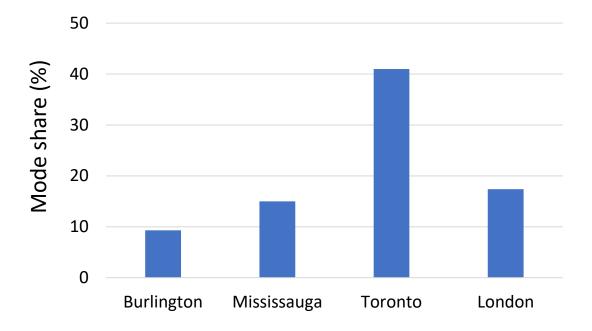

Quick Comparison

Using data submitted to CDP Cities in 2022

Sustainable Transport

Cycling, walking, micromobility, public transit

Thank You
